DETAILED ACTION

Allowable Subject Matter

Claims 1-10 are allowed. The following is an examiner's statement of reasons for allowance: As noted in the amendment, the claims recite the algorithmic test being executed within an electronic device. As noted in the first page of the specification, such a single device (e.g., a chip card) is of particular use. In the prior art (such as cited by Applicant – Coron et al., An accurate Evaluation of Maurer's Universal Test, 1998), such use of a single device is not taught or suggested in the context of the other features of the claims. The prior art did not teach or suggest the particular features of the claims.

Conclusion
